

## About us

Opened in April 2016, Cocotte conceptualizes the « living the farm » experience by creating a farm oriented restaurant in Bangkok. Definitively close to its suppliers, Cocotte's main ambition is to provide quality Organic & Local products to its customers. Cocotte is not only offering a large range of roasted meat, organic vegetables, tasty cheeses and fine wines, but also an unique farm-like atmosphere in the heart of Bangkok.

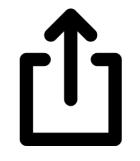

# Our Logo

Cocotte's logo

This is the primary version of the logo that should be used as the default.

Note : All versions of the logo come in a white variation as well and should be used when the darken version is not discernable
